I'm requesting an Open Stage performance slot. I understand this slot is for Hawaiian steel guitar performances, either by an individual or a band with a Hawaiian steel guitar, and that my set list must include Hawaiian music for most, if not all, my selections. I also understand that Open Stage performances are uncompensated and that the performance time is 30 minutes including setup and teardown.

I'm requesting a school visitation for my class. I acknowledge that I am an instructor or administrator of a public or private school and that I am authorized to schedule such visitations. I am aware that visitations are subject to personnel availability and festival scheduling requirements.
